care instructions

Vacuum your rug regularly as shedding of loose fibers will occur with a new rug (do not use a rotating or brush head on the vacuum cleaner).

Promptly clean spills by blotting with a clean, undyed cloth. Do not dry clean or use harsh chemicals that could damage or fade your rug. Never fold your rug for storage or keep in an airtight bag. If rug remains in an uncovered area outdoors and is subject to rain or heavy dew, it should be allowed to dry front and back, as dampness can cause some fiber breakdown over time. Professional cleaning is recommended on occasion to ensure the long life of your rug.

Please refer to our website for more information: [armadillo-co.com](http://armadillo-co.com)

manufacturing variations

**Size** - Can vary by +/- 3%.

**Color** - Rugs are primarily made from natural and undyed fibers. Every effort is made to ensure there is minimal color variation however some variation can be expected.

**Shedding** - Natural fiber rugs will initially shed loose fibers, which can be hastened by regular vacuuming.

**Pop-ups** - Due to the nature of weaving, there will be short fibers popping up while the rug settles. These can be trimmed by hand with household scissors.

stock rugs

From time to time a product will be out of stock. Armadillo & Co will endeavour to ensure items are back in stock within 6-8 weeks.
