care instructions

Vacuum your rug regularly as shedding of loose fibers will occur with a new rug (do not use a rotating or brush head on the vacuum cleaner). Due to the deep color of parts of this product, some color transfer may be experienced, avoid use on light colored surfaces without a Rug Pad.

Promptly clean spills by blotting with a clean, undyed cloth. Do not dry clean or use harsh chemicals that could damage or fade your rug. Never fold your rug for storage or keep in an airtight bag. Avoid direct or continuous exposure to sunlight and rotate your rug to promote even wear. Professional cleaning is recommended on occasion to ensure the long life of your rug.

manufacturing variations

Size - Can vary by +/- 3%.

Color - Rugs are primarily made from natural and undyed fibers. Every effort is made to ensure there is minimal color variation however some variation can be expected.

Shedding - Natural fiber rugs will initially shed loose fibers, which can be hastened by regular vacuuming.

Pop-ups - Due to the nature of weaving, there will be short fibers popping up while the rug settles. These can be trimmed by hand with household scissors.
